EKUL (England Kabaddi Universities League)

Clarification regarding external players

07 February 2025

In the interest of encouraging participation from students and promoting Kabaddi in universities across England, it is clarified that each participating university club may have, at maximum, 2 external players as long as:

- The external players are students;
- The external players are enrolled full time at a university in England that does not have its own Kabaddi club;
- The external players have not played for any other university club at any tournament; and
- The external players must have membership of the university Kabaddi club that they wish to play for;

It is also hereby clarified that non-external players must be full time enrolled students at the university where the university club for which they play is registered.

Players may be asked to prove any of the above, at the sole discretion of the referee / the ECU. ECU reserves the right to modify match results retroactively in case the rules provided above are not complied with, and the same is discovered after the match is concluded.
